LIFELINE TRAINING: Build resilience in your organisation

There is increasing demand from Australian organisations to deliver training that builds the resilience of their employees. By focusing on mental health and wellbeing you will help managers and staff know how to prevent, identify, and respond to mental health issues in the workplace.

Lifeline's workplace training courses aim to increase employee engagement, safeguard employee mental health, and improve wellbeing. When employees thrive, so do businesses.

ACCIDENTAL COUNSELLOR (4 hours) Up to 20 participants - value \$3,500

Accidental Counsellor is an invaluable half-day workshop, suitable for any team members who would like to be able to safely and effectively support friends, family, colleagues, and strangers who are in distress or experiencing a crisis.

Accidental Counsellor will provide your staff with basic skills and a structure to enable them to provide immediate support and assistance using the 'Recognise, Respond, Refer' model. The skills learnt in the *Accidental Counsellor* course can be applied in many contexts, and will provide participants with the confidence and skills necessary to support someone in their moment of need, while maintaining their own wellbeing.

Let us assist you to bring this valuable training to your own staff/group via Zoom or face-to-face. Together, we can help build resilience in our community and save lives from suicide.

NOTE: LIFELINE CAN PROVIDE REGULAR DELIVERY OF THESE WORKSHOPS AS REQUIRED BY A BUSINESS SEPARATE TO GOLF DAY SPONSORSHIP.

Terms and conditions apply for Workplace Training. Sessions must be booked within 12 months of the event date. Please phone Lifeline H2H to discuss your Workplace Training requirements.
